Welsh Parliament
Children, Young People and Education Committee

Inquiry into the impact of the Covid-19 outbreak on
children and young people in Wales

COV 166
Response from: Individual

Please open Welsh schools fully from September in line with the rest of the UK.

By failing to do this you are failing our children, failing their learning needs, failing their
mental & emotional wellbeing.

You are failing the hundreds of exhausted , overworked, underpaid teachers such as myself
whom teach in schools in England and will find it IMPOSSIBLE to do our jobs while
homeschooling continues for our own children living on the Welsh side.

This needs resolving URGENTLY to allow schools in Wales to plan.
