

P-05-1092 Do not delay the May 2021 elections

This petition was submitted by David Hopkins having collected a total of 470 signatures.

Text of Petition:

The right to vote for democracy should not and cannot be removed by those in power as it undermines democracy. The current government must not be allowed to extend out their government as a result of Covid. All other countries have managed to hold elections.

Senedd Constituency and Region
